Dear Chris

Thank you

I am writing to thank both yourself and your team for the help and support that you have given us in installing our new Small Business Server. Having neither the ability nor time to put our requirements into practice, you interpreted our requirements, produced a quotation within budget and installed the new server with minimal interruption.

The difference that it has made to our working practices is unbelievable and the ability to catch up with e-mails and problem solve whilst mobile is fantastic.

Many Thanks

Kind Regards

Carrie Blakemore
Proprietor
